

Subject: Complete Shaft Solution to optimize your costs:

Dear Sir / Madam,

Keeping motion alive is of crucial importance as it forms the basis of growth & development. Understanding this need of growing India ZKL Bearings (India) Pvt Ltd unleashes the Complete Shaft Solution, which addresses any rotating shaft problem.

Using the Complete Shaft Solution not only improves the performance of machines, but also reduces maintenance and downtime, enhancing the plant profitability.

The following are the potential problems of a rotating shaft:

- Misalignment
- Vibration
- Poor bearing fit.
- Ageing technology.

It has been our goal to offer convenience to our customers and reduce their costs by optimizing the plant efficiency.

As part of the Complete Shaft Solution, ZKL Bearings (India) Pvt Ltd, offers the following tools, which helps in combating the above mentioned problems in-turn helping us achieve maximum value addition to customers.

1. **Wide range of bearings.**
2. **Y Bearing Unit**
3. **Adaptor Sleeves & Withdrawal Sleeves**
4. **Bearing Housing.**
5. **Oil Seals**
6. **Maintenance Products**
 - a. **Induction Heater**
 - b. **Oil Injection Pump**
 - c. **Mechanical & Hydraulic Pullers**
 - d. **Bearing Fitting Tool.**
7. **Grease.**
8. **Testing Instruments**
 - a. **Vibrometer.**
 - b. **Non – Contact Laser Beam Digital Tachometer.**
 - c. **Non – Contact Infrared Laser Thermometer.**
 - d. **Sound Level Meter**

The making of each of the above mentioned products involves highly specialized engineering skills with a promise of delivering performance, which holds great value to customers.

It is in this regard that **ZKL Bearings (India) Pvt Ltd** (the only principle outlet for products with ‘ZKL Brand’ in India) is often referred to as “**value giants**” as we

provide an attractive mix of price, quality, variety and convenience making 'ZKL' the preferred brand.

In addition the complete shaft solution is backed by excellent logistics support to customers, through ZKL Bearings India's warehouse maintaining large stocks along with a strong national distribution channel.

CAUTION: Please do not be duped for your money!

A large number of spurious (duplicate bearings) flow of bearings is taking place in the Indian market. It's our responsibility to protect our customers and bearing users at large which has led us in developing the "**HOLOGRAM**". There are a number of features checking of which ensures originality in bearings. Please ensure that you see the HOLOGRAM, the sign of authenticity, irrespective of the source of procurement of brand ZKL.
